Thread color options:

There are specific approved colors and color combinations for PHW logos. Samples of approved colors are included in the photos.

You will choose two thread colors for one logo; pick one thread color for the FISH in the design and a second thread color for the TEXT in the design. When combining the logo with brand colors, always ensure there is ample contrast in color pairings. Examples of approved color combinations are included in the photos.

Embroidery Placement location on item:

There are some standard embroidery locations for garments such as left chest or right chest, however placement is totally up to you! So long as we can hoop it, we can do it! Please let us know in the text box below where on your item you would like the embroidered PHW logo to be placed.

Rest assured; we will confirm details with you (mock-up) for approval prior to embroidering your item.
